

MODEL ID: CPU-651

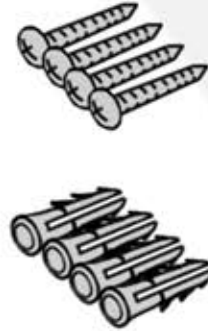

Height: 16"
Width: 5"
Depth: 11"

DESCRIPTION

Our CPU Holders are designed to efficiently and securely hold a computer in a wall or side mount configuration. The CPU Holder is made out of strong steel material and finished in a durable matte black powdercoat finish for a longlasting, good looking appearance. This computer holder is designed with top and bottom flanges on the open front facing side of the mount that secure a mounted CPU to prevent tipping while allowing for maximum ventilation. The four holes cut into the top flange of the holder can be used for attachment of accessories if desired. The CPU Holders come in different sizing options for variety in specification. When determining the right holder for your computer, we suggest choosing a holder that is no more than .5 inches on the verticle and .5 inch on the width dimensions larger than your machine.

WHAT'S INCLUDED

SPECIFICATIONS

Part Number	CPU-651
Height	16 in / 406.4 mm
Width	5 in / 127 mm
Depth	11 in / 279.4 mm
Country of Origin	Made in USA
Material	Powder Coat
Color	Black
Shipping Method	FedEx Ground
Weight Capacity	50 lb / 22.679 kg
Overall Perimeter Capacity	Perimeter (W + H) ≤ 12.00 in / 304.8 mm
Depth Capacity	19" in / 482.6 mm

INSTALLATION

Step 1: Select an appropriate location on the wall.
Step 2: Hold the bracket in position and mark all 8 holes. The 4 keyholes need to be marked all to the left or the right of the large center hole. **Step 3:** Install one drywall anchor at each mark unless there is a wall stud. **Step 4:** Install one screw in each keyhole position, leaving it out from the wall a 1/4". **Step 5:** Put the monitor face down on a table and locate the four VESA mounting holes. Secure the bracket using the manufacturer's guidelines and screws.
