DESCRIPTION

Under Mount 444 is used to mount computers and other office electronics in order to clear up unorganized workspaces. This specific Under Mount is designed to support SFF PCs - Small Form Factor Computers from various manufacturers such as HP, Lenovo, Acer, and Dell. Under Mount 444 can also be used to hold other devices as long as the dimensions of the device allow it. If you are looking for a solution to help organize your workplace at the office or at home, look no further than Oeveo mounting solutions. Our products are Made in the USA, built to last a lifetime, and designed to look good in any environment.

INSTALLATION

To install the UCM-444, decide where you will mount your device. Will it be under your desk, on a wall near your workspace, or maybe up on the ceiling? In any case, you will want to make sure you are mounting your device to a sturdy structure, whether that’s a wall or ceiling stud, metal frame, wooden desk top, etc. Find that structure, and aline the mount to your liking. Finally, secure the UCM-444 to the mounting surface using the 1-¼” black screws. If you are using wall anchors, take a 3/16” drill bit, and drill holes where you aligned the mount. Insert the provided plastic wall anchors in the pre-drilled holes, and secure the UCM-444 to the mounting structure using the 1-¼” black screws.
