DESCRIPTION

The Under Desk Laptop Mount Mini provides a designated spot for mini laptops. No more hassle of trying to locate your lost laptop or figuring out where to put it when it's not in use. This mount is designed to be mounted underneath your desk. The most popular computers using the Laptop Mount Mini are: Chromebook, Macbook Mini, Macbook Air, iPad, Android Tablets, Lenovo IdeaPad, ThinkPad, Asus, Dell, HP, and more! Don't let organization and item designation go without planning, get a laptop desk shelf that will last from Oe veo. The Under Desk Laptop Mount Mini (and standard size) come with slot holes on the sides of the mount for managing cable access, slot holes on the bottom of the mount to help with heat dissipation, slotted mounting holes on the top flanges for easy installation, and a back lip to prevent your laptop from sliding too far forward into the mount.

INSTALLATION

1. Decide on an area under your desk where you would like to install the mount.
2. Make sure you are mounting your device to a sturdy, structured desk.
3. Once you decide on a desk and a spot under the desk, align the mount to your liking. Then, secure the UCM-877 to the mounting surface using our 1-1/4" Black screws.
4. Please make sure to check the thickness of the desktop you're installing into and the screw length you're using as we provide screws of 1-1/4" length for desk thicker than 1.5" . Shorter screws may be required for desktops with less than 1.5" thickness.
