Shipping Method	FedEx Ground
Weight Capacity	100 lb / 45.36 kg
Overall Perimeter Capacity	Perimeter (w+w+h+h) ≤ 46.50 in / 1181.10 mm
Depth Capacity	22.00 in / 558.80 mm

DESCRIPTION

The Universal Mount 301 is an all-purpose mounting solution used to hold most computers, battery backup units, gaming stations, networking components, audio and video components, and other electronic devices. The design and functionality this adjustable mount offers allows devices of various weights, shapes, and sizes to be mounted vertically, directly to a wall or to the side of a desk, with ease. The Universal Mount 301 is a simple, yet extremely effective solution that helps organize your workspace and make use of the wasted space around your office.

INSTALLATION

To install the UNVM-301, locate a wall stud nearest to the location you would like your device mounted. Line up the two center mounting holes with the wall stud, and using a pencil, trace all four hole points. Using a 3/16” drill bit, drill a hole at each point traced. Insert the provided plastic wall anchors in the pre-drilled holes, and secure the UNVM-301 to the mounting surface using the 1-¼” black screws.
